

NAVINET CARE GAPS RESPONSE FORM

User Guide

TABLE OF CONTENTS

OVERVIEW

The Care Gaps Response Form functionality allows providers using the NaviNet portal to enter Care Gap resolution data online. This data will be captured and stored along with any supporting documentation. Providers will be able to retrieve and report on specific Care Gap changes. Verified Care Gap resolution updates will be applied in real-time within NaviNet to prevent Care Gaps from continuing to appear as alerts.

Before You Begin

- 1. NaviNet Permissions Contact your NaviNet Security Officer to confirm proper access and to enable Document Exchange.
- 2. Filter by Providers for Optimum Access.

You can view and access documents submitted by all providers associated with your office, or you can specify a list of providers whose documents you prefer to see. You can save this list of providers to be used by default anytime you access the Patient or Practice Document dashboards. To learn more about your access options, please log into NaviNet and visit the NantHealth Help Center.

Reviewing the Status of a Care Gap

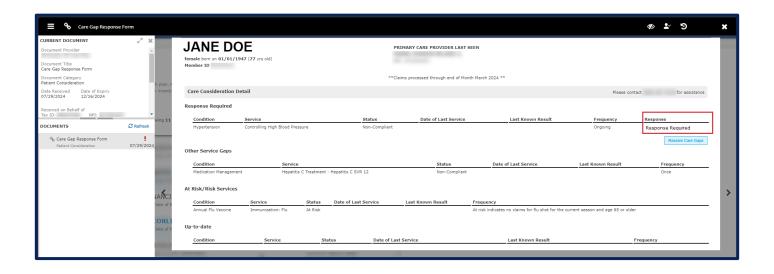

Once you have submitted the Care Gap Response Form, a Quality Reviewer from our team will review the information provided and based on the attached documentation, return a status of *Approved* or *Rejected*.

Once the Care Gap Response has been approved, the record or alert will no longer appear in your queue. Any approved record will move to the "up-to-date" section in the Care Consideration Screen for that member, while rejected responses will show Rejected in the Response column.

The Care Gap status can be reviewed in the Response column of the Care Consideration Detail screen.

This field will display one of the following:

- Saved/not submitted: You have saved your response but did not submit it yet.
- Submitted: You have completed all necessary steps and submitted the information.
- Response Required: You have not yet responded to the Care Gap.
- Rejected: Your response has been rejected by the Quality Reviewer.
