

Add-On Codes

Reimbursement Policy ID: RPC.0007.LAEX

Recent review date: 01/2026

Next review date: 10/2026

AmeriHealth Caritas Next reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. AmeriHealth Caritas Next may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

To the extent that any procedure and/or diagnosis codes are specified in this policy, such inclusion is provided for reference purposes only, may not be all inclusive, and is not intended to serve as billing instructions. Listing of a code in this policy does not imply that the service described by the code is a covered or non-covered health service. Benefit coverage for health services is determined by federal, state, or contractual requirements and applicable laws that may require coverage for a specific service. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment. Other Policies and Guidelines may apply.

Policy Overview

The basis for add-on codes is to enable physicians or other health care professionals to separately identify a service that is performed in certain situations as an additional service or typically performed in addition to the primary service or procedure. Add-on codes describe a service that is performed in conjunction with the primary service by the same provider.

Add-on codes are reimbursable services when reported in addition to the appropriate primary service by the same individual physician or other qualified health care professional reporting the same Federal Tax Identification Number on the same date of service. Add-on codes reported as stand-alone codes are not

reimbursable services in accordance with Current Procedural Terminology (CPT) and the Centers for Medicare and Medicaid Services (CMS) guidelines.

Reimbursement Guidelines

AmeriHealth Caritas Next follows guidelines of the American Medical Association (AMA) CPT code set and CMS with respect to the reporting of add-on CPT and HCPCS codes. Under CPT rules, add-on codes describe additional interservice work associated with a primary procedure/service and are always reported in addition to the primary service or procedure and must be performed by the same individual physician or other health care professional reporting the primary service/procedure.

In addition, add-on codes are never reimbursed unless a primary procedure code is also reimbursed. Add-on CPT codes are designated with a "+" symbol and are also listed in Appendix D of the CPT manual. Add-on codes can also be noted at times as: "list separately in addition to" and/or "each additional" and/or "done at the time of another procedure."

Add-on codes are identified in the CMS Physician Fee Schedule (PFS) as ZZZ global day indicator.

Definitions

Add-on codes

Add-on codes describe additional intra-service work associated with the primary service or procedure.

Same individual physician or other qualified health care professional

A physician or other health care professional from the same group practice with the exact same specialty and subspecialty reporting under the same Federal Tax Identification number (TIN).
